## **Drove**

## **Coal Chamber**

Keep my enemies close to me
And I've been watching you closely
Yes I despise you mostly, yes you
You think you're tall for dogging me
You're small you see a wanna be
A mirror of me is stolen, identity

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

You think you're tall for dogging me You're small you see a wanna be A mirror of me is stolen, identity I keep my friends close to me

And I've been watching you closely

Yes I despise you mostly, yes you

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

Why'd I do it?

You drove me to it

You can take the high road We'll play by my rules

You can take the high road We'll play by my rules Say never, say never, say never Say never, say never, say never Say never, say never, say never, say never Say never, say never, say never Never, say never, say never, say never Never, say never, say never Never say, never say Never say, never say Never, say never, say never Why'd I do it? You drove me to it drove Why'd I do it? You drove me to it drove Why'd I do it? You drove me to it drove Why'd I do it? You drove me to it drove
