

# Don't Leave Me

Nelly Furtado

Here I go again  
With my head in my hands  
When you say you'll call but you don't And then I pretend  
This is the last time  
That I'll take you back when you say you're sorry Don't leave me no more  
Every time you walk out the door  
I don't know if you're gonna come back around here anymore  
Don't leave me no more  
Every time you walk out the door  
I don't know if you're gonna come back to me here anymore  
Don't leave  
Don't leave I used to be a queen  
But now I'm a shadow of me  
I deserve more but love is a chore  
And wanting you has made me so weak Don't leave me no more  
Every time you walk out the door  
I don't know if you're gonna come back around here anymore  
Don't leave me no more  
Every time you walk out the door  
I don't know if you're gonna come back to me here anymore  
Don't leave oooh  
Don't leave I'm such a fool for you  
And you keep playing and playing around  
Until the sun comes down and rises again in the morning  
And my heart keeps breaking and breaking  
And I'm tired of wasting and wasting away for a cure Don't leave me no more  
Every time you walk out the door  
I don't know if you're gonna come back around here anymore  
Don't leave me no more  
Every time you walk out the door  
I don't know if you're gonna come back to me here anymore  
Don't leave My heart keeps breaking and breaking and breaking down  
You keep playing and playing and playing around  
(repeat once)
