

Open Hand

what's inside
 far away, separation
 I don't know now
 looking back far away
 falling down inside
 I'm so helpless
 I want you under
 I want you on my side
 you said to me "I want you on my side"
 I knew just what to say
 I did it all for you
 for you
 what's inside
 far away, separation
 I don't know now
 looking back far away
 falling down inside
 I'm so helpless
 you are the one
 why am I not the only one
 decide what you want from my friends
 someone I know why
 decide to stay right now this time
 someone I know why
 then you walk away
 I know what it's like
 watch me fall away from you
 then you walk away
 so very far from you in a softer way
 I know it's like
 I want you when on my side
 I know what it's like
 I know it's like
 I want you where by my side
 to save me from myself again
 far from you
 stay down
