Devil Digger

Judas Priest

I was cross wired underground
Nothing seemed to fit
I was fried and memory bound
Then it came to me
Devil digger
Unforgiver
I was on a different plane
He said, "Come to me"
Laid his hands upon my brow
That's the last of me
Devil digger
Unbeliever
Don't be sorry
It's no disgrace
But never worry
You have no faith
Death's not final so we're told
Words are so profound
Who the hell wants to get old
Ask in the final hours
Devil digger
Unforgiver
See him coming
He has no face
You must stop running
You must have faith
I don't want to fade away
I don't want to fade away
I don't want to fade away
I don't want to fade away
