

Kelly

Van She

Kelly was a young girl, looking in the mirror, doing what young kids do
Watching out the window, thinking of all the things that she should do
She's running all the time, she's running blind.

It's raining all the time, the clock hit nine, then she met me.[Chorus]

 Oh Kelly, do what you need to come

Oh Kelly, you know I see you running She's sitting back know, painting in her taylors, thinking of me and
 you

 Listening to her player, missing out all the Prince and tunes she knew
 She's running out of time, she's running blind.

It's raining all the time, the clock hit nine, then she met me.[Chorus]Oh Kelly, do what you need to come

 Oh Kelly, you know I see you running

 Oh Kelly, do what you need to come

 Oh Kelly, you know I see you running
