

# Christmas Through a Child's Eyes

[Linda Eder](#)

Every year I'd wait for the season  
Only Christmas time can bring  
I thought I understood the reason  
For all the parties and caroling Every year I'd search for the meaning  
Every time I'd dress the tree  
Each new ornament and garland  
Each decoration was all I'd see And all that Christmas meant to me  
Then someone told me Christmas is for children  
And I left that behind too long ago  
But now I see Christmas through a child's eyes  
My new son's eyes Now every time we ring in the season  
And play a Christmas melody  
I know that the moment he hears it  
He'll bring Christmas back to me
