

# Rock Is Our Life (Recorded Live in Wacken, 2004)

## Saxon

We stand here together  
Fearless and proud  
Raise up your voices  
Let the music be loud  
There's nothing between us  
We stand here as one  
The waiting is over, your time has come  
Raise up your hands into the light  
We stand together 'cause rock is our life  
Lift up your voices into the night  
We stand together 'cause rock is our life  
Rocking together  
Into the night  
Denim and leather  
The feeling is right  
Will you be standing  
When the music is done  
The waiting is over, your time has come  
Raise up your hands into the light  
We stand together 'cause rock is our life  
Lift up your voices into the night  
We stand together 'cause rock is our life
