

1977

Years & Years

[Verse 1]

You dye your hands the color blue
You wash your mouth, you pray for truth
You've seen it all by the grace of God
It's what you've done, it's who you are[Chorus]

Oh, oh, fever

Oh, oh, fever

You drink it all, you'll live tonight
You bite your cheeks, you'll put it right

Oh, oh, fever[Verse 2]

Kiss your tongue, you strike a match
Keep it high, you're moving fast
You touch the ground you're slipping through
You'll never know how you can move[Chorus]

Oh, oh, fever

Oh, oh, fever

You drink it all, you'll live tonight
You bite your cheeks, you'll put it right

Oh, oh fever
