

# Down Down

## Thief

Down, down baby  
Down to the place that I long to be  
Down, down baby  
It's there and it will be forever

Lose the fear, drop the time  
Then get near  
All in style

Down, down save me  
I'll get exactly what i will need  
Don't keep me waiting  
I know I will need it forever

Lose the fear, drop the time  
Then get near  
All in style

It is too late to cry
