Baby

What is this spell you cast on me?

I can't get out of it

I've never been like this before

I've never been shaken up before (no)

(Woo) I'm like this all day, drunk with thoughts of you

(Woo) I'm just waiting to go see you

(Woo woo baby) What do I do?

I don't think I can live without you (woo baby)

I Feel You

Even when I'm alone, I feel your touch

All day, you touch me

I Feel You

I've fallen for you and I can't escape

I only think about running to you

I'm falling for you more and more

I'm going crazier and crazier

More and more, what do I do?

Baby

It feels like your touch is still

brushing over me

It seems like your voice is

still whispering in my ear (no)

(Woo) I'm like this all day, drunk with thoughts of you

(Woo) I'm just waiting to go see you

(Woo woo baby) What do I do?

I don't think I can live without you (woo baby)

I Feel You

Even when I'm alone, I feel your touch

All day, you touch me

I Feel You

I've fallen for you and I can't escape
I only think about running to you
I hear you even when my eyes are closed
I feel your sweet breath
Stop looking at me and turn off the lights
Your look is making me red
My hands and feet feel tickled
My rising temperature quickens my breath
I can't hold it in anymore
Now please baby be mine

I Feel You

Even when I'm alone, I feel your touch
All day, you touch me

I Feel You

I've fallen for you and I can't escape
I only think about running to you
I'm falling for you more and more
I'm going crazier and crazier
More and more, what do I do?
Baby
