

# Gimme What I Don't Know (I Want)

Justin Timberlake

Sound's a calm, when we become the animals that we're made in the jungle Why you staying so far away?

Running men is looking on, why

Why don't you come out to play

And get closer to your animal, inside

Baby I act like the gentleman that your mother would love, ooh get to me

Baby you act like a lady, don't have to cover it up, things you wanna show me

Make me remember the reason why I wanted to love, please be slowly

I think you're ready to try, walk a little closer and Now take me to your jungle, I'm not afraid

And if you're looking for your animal, hop in my cage

Fall in a terror of height, don't talk

Come in, come in, baby what I don't know, I want

Come in, come in, baby what I don't know, I want

Come in, come in, baby what I don't know, I want

Come in, come in, baby what I don't know, don't know, I want

Come in, come in, baby what I don't know, I want Show me your t-shirt, and sweat your sling

Down and dirty, you're loving me so loud

Play it breeze, but you wild as a strain

Side show in front of the whole crowd Baby I act like the gentleman that your mother would love, ooh get to me

Baby you act like a lady, don't have to cover it up, things you wanna show me

Make me remember the reason why I wanted to love, please be slowly

I think you're ready to try, walk a little closer and Now take me to your jungle, I'm not afraid

And if you're looking for your animal, hop in my cage

Fall in a terror of height, don't talk

Come in, come in, baby what I don't know, I want

Come in, come in, baby what I don't know, I want

Come in, come in, baby what I don't know, I want

Come in, come in, baby what I don't know, don't know, I want

Come in, come in, baby what I don't know, I want Sound's a calm, when we become the animals that we're made in the jungle Now take me to your jungle, I'm not afraid

And if you're looking for your animal, hop in my cage

Fall in a terror of height, don't talk

Come in, come in, baby what I don't know, I want

Come in, come in, baby what I don't know, I want

Come in, come in, baby what I don't know, I want

Come in, come in, baby what I don't know, don't know, I want

Come in, come in, baby what I don't know, I want Sound's a calm, when we become the animals that we're made in the jungle Come in, come in, baby what I don't know, I want

Come in, come in, baby what I don't know, I want

Come in, come in, baby what I don't know, I want

Come in, come in, baby what I don't know, don't know, I want  
Come in, come in, baby what I don't know, I want
