Away

Sophia Maria

0hh i see how your always tryn to please me
and i know, it gets hard
with my insecurities
and i wish so much
that i could heal myself completely
but its hard sometimes my past takes over my life
and i wish this pain away,..

[chorus]

away,away from all this pain
but no matter what it takes
i gotta make it through the rain
away,away from all this pain

your the man in my life
i wana be by your side
dont wanna fight anymore..

oh i am so afraid..

the first time you told me you loved me
i always knew thaat i loved you
but at the same time i didnt want to love you
cuz i waas so scared that you would hurt me

but yet i never felt so safe and secure
with you by my side
dont want to push you waway
ill do what ever it takes
to keep our love alive

[chorus]

away,away from all this pain
but no matter what it takes
i gotta make it through the rain
away,away from all this pain

your the man in my life

i wanna be by your side
dont wana fight anymore..

i know i got a great man by my side
and my past cant take over my life..
im not goin change
im not goin be the same
pus this burden away.....

[chorus]

away,away from all this pain
but no matter what it takes
i gotta make it through the rain
away,away from all this pain

your the man in my life
i wanna be by your side
dont wana fight anymore..

ohh im so afraid..
