

Dreams (feat. Carmody)

Alfa Mist

In the dark, how my mind likes to walk with me
Talk through the day, all the people I try to be
You left, in the nightâ€™s lullaby
Couldnâ€™t you wait for me?

If I hold too close, if I lie so near, could I be your passenger, disappear
In dreams with you
If I hold too close, if I lie so near, could I be your passenger, disappear,
In dreams with you (x2)

In the night, these thoughts of my enemy
Presses till dawn
How they pull sleep away from me
You stay, in that dark still place
Couldnâ€™t you wait for me?

If I hold too close, if I lie so near, could I be your passenger, disappear
In dreams with you
If I hold too close, if I lie so near, could I be your passenger, disappear,
In dreams with you (x6)
