Fly Away

Rosi Golan

I see a light at the end of the road
It's gonna run us down, run us down
I've got a plan, I'm putting on a show
I'm gonna please the crowd, please the crowd
I'm gonna say what we both already know
This ship is sinking now, sinking now
You leave me here, you can make it to the shore
I promise I won't drown, I won't drownI'll be here
Go find help
I'll hang onFly away, fly away from me
'Cause it ain't no love it if ain't set free
And if you return it was meant I am certain
Fly away fly away from meI made our bed and its feeling kinda cold
You used to warm it up, warm it up
Walls made of sheets and pillows made of stone
Are caving in on us, in on usI'll be here
Go find help
I'll hang onFly away, fly away from me
'Cause it ain't no love it if ain't set free
And if you return it was meant I am certain
Fly away fly away from meOh when you go
Oh when you go
