Just One Night

Ekolu

Just one night, I'd like to spend with you,
There's so much that I could do to make you happy,
I would, write a song for you, and sing about your smile,
girl if you were here, I'd make it worth the while, But I

Pre-Chorus
Guess you never know how much I really love you so,
cause Im just to shy to even let you know.
I wanna be there with you each and every night,
instead of always having you on my mind.
I wanna be there with you when the sun goes down,
and be there right beside you when you turn around.
To prove that I can love you for the rest of your life,
baby all I need from you is just one night.

Chorusx4
(please baby, give me just one night) just one night with you!

Just one night to show how I feel for you,
I would never treat you cruel, I'll be good to you,
but baby If you were here tonight, then you would see,
just how much one night really means to me, but baby

Repeat Pre-Chorus:

Repeat Chorusx4

Outro
To show how I feel for you, I'd give all my love to you,
if you give me just one night
Guess you never know, how much I really love you so.
