Only time can heal the pain that we have had that we've experienced
Heaven knows we must believe that we can smile and have our differences
I know that we've both been bad and now it's really time we both behave
Everything we've said about each other then lets take it to the grave Oh I'm dying now I want you to believe
Oh I guess it's time we face the truth and leave Every time that I have fallen down I've gotten right back up again
I can't help but think about the times we shared the time when we were friends
I remember laughing extra hard at some of the crazy things you'd say
Tell me we can put this all behind us now and I just got to say Oh I'm dying now I want you to believe
Oh I guess it's time we face the truth and leave We worked so hard I can't believe it's come to us giving up
I guess it's time for us to realized that this isn't love
I think it's time we both admit that we just have to let go
You were the one that had my heart and I know that you know
Oh I'm trying hard to recognize the truth
Oh It kills me deep inside to leave from you Oh I'm dying now I want you to believe
Oh I guess it's time we face the truth and leave
