

The Present (feat. Septemberkind)

Zealand

Sunlight illuminates the dust
my heart sleeps beneath the earth
 wake me up again
time to move on from the rain...rain

time and again
??? [distorted]

 if I'd ???
 my heart's burning
 trying to breathe again
the wind blows through my hair
 as we defy...if I dare...dare

time and again
raise yourself up once again

time and again
raise yourself up once again
