

# She's A Brain

## Veruca Salt

Take me I am yours  
You don't have to beg and plead when I'm finished with your body  
she's a brain (3x)  
She is not quite what I wanted  
She is not quite what I need  
Someone said she was cerebral, but I don't know what that means,

Please explain  
Take me I am yours (2x)  
she said, 'take me I implore you'  
Don't you know that really bores you?  
When she's finished with my body,  
Does she say she's going to pour me down the drain?
