

# Feathery

## Milky Chance

They came along and washed my soul so easy  
High above myself, but I could hear them anyway  
The wind is taking them away so feathery  
To show them all the places they can reach  
And it's not too far for them to go and leave  
Me all alone like there is no guaranty for such a dream  
And they bequeath me a black feather on the way  
And I (say)thought: Yes, I am a dreamer and these feathers,  
they won't stayAnd I will try  
Try to hold you  
With my arms around your heart  
Even though love is going to kill me  
I will try ...
