

Leave Him Out of This

[Steve Wariner](#)

We're here in the dark alone, the three of us again
You and me are lying here with your memory of him You say I've lost my mind but you say that every time
It's more than jealousy
I feel you holding him just as tight as me I beg you just one time, leave him out of this
Don't throw it all away for somebody that you miss
I wish you could want my love as much as you want his
Make love to me tonight and leave him out of this I reach out to touch your face and pull you next to me
We're as close as we can get with someone in between You say I'm dreaming this, you haven't seen him since
He said his last goodbye
But I know you're seeing him when you close your eyes I beg you just one time, leave him out of this
Don't throw it all away for somebody that you miss
I wish you could want my love as much as you want his
Make love to me tonight and leave him out of this
Make love to me tonight and leave him out of this
