

# Giants

## Enslaved

No distance, no time  
Endless void, absence of life  
Chaos dwells outside the tomb  
Seduce, invoke  
Embrace, give birth See through the flesh  
See past the soul  
Feel the pulsating twilight  
Domain of unborn thoughts Go back, unveil  
Approach the cosmic womb  
No smile without pain  
No grief without laughter Turn inwards, realize  
Witness the march of the giants  
Soil and seed  
Turn inwards, gratify  
Witness the storming of heaven  
Endless rebirth Come nearer, restless sin  
Step into the core  
They will welcome your return  
(Further in)  
Ride the storm one can't escape  
(Ride the storm) Awake the gods  
(The gods)  
Awake the gods  
(Gods) Turn inwards, realize  
Witness the march of the giants  
Soil and seed  
Turn inwards, gratify  
Witness the storming of heaven  
Endless rebirth
