

# Gamma Ray

## Diversa

You build bombs, you're familiar with explosions  
the flat palms of the holiday  
but there's slime crawling back up from the ocean  
you can't keep everyone at bay

Gamma Ray

Gamma Ray

It all starts with an accident or failure  
it all starts with a great big bang  
and guess who's gonna have to play the jailer?  
and guess who's gonna lead the chain gang?

Gamma Ray

Gamma Ray

and one thing leads to another and none of it's good  
none of it's good,  
none of it's good

There's some flaw that you cannot help but foster  
there's some weakness you can't forgive  
and from that, you've been turned into a monster  
a nightmare that you force yourself to live

Gamma Ray

Gamma Ray

And one thing leads to another and none of it's good  
none of it's good  
none of it's good
