

# Cut To the Chase

## Fort Lean

I watched you burst onto the scene  
I watched you glide across the screen  
I watched you slide around the room like a ghost  
That we could all see  
And when you left  
We could all feel that you were missing  
Never mind it's alright we'll be fine  
It's a shame but it's okay  
Never mind it's alright  
You can lie, you can say that it's all okay  
I don't want you to make a scene  
You know exactly what I mean  
You think it's cute to carry on  
Well, it's not  
Oh, don't you know?  
You should enjoy this while you can  
Because it won't last  
Never mind it's alright we'll be fine  
It's a shame but it's okay  
Never mind it's alright  
You can lie, you can say that it's all okay  
I don't care where you've been  
Or what you're thinking of  
I just care how you waste my time, my love  
I get so sad and doubt you  
I get so sick about you  
I just want you come back home  
Never mind it's alright we'll be fine  
It's a shame but it's okay  
Never mind it's alright  
You can lie, you can say that it's all okay
