

Nobody (feat. Alicia Keys & Nicki Minaj)

DJ Khaled

[Intro: DJ Khaled & Nicki Minaj]

We the Best Music! Another one

Young Money!

Alicia Keys!

DJ Khaled[Hook: Alicia Keys]

I just got back from where they said I couldn't get back from

And I thank God, I thank God that I made it

They surprised, they surprised that I made it

Heart is like diamond keep blindin' their faces

I wonder how I keep finding these places

I can't explain how it feels to be patient

Killing the drama, we finally made it[Refrain: Alicia Keys]

Yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah

Nobody knows, nobody knows, nobody knows, nobody but you

Yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah

Nobody knows, nobody knows, nobody knows, nobody but you[Verse: Nicki Minaj]

I got something inside of me that can't be quenched

I'm addicted to winning and I can't be benched

Go to war for every black queen that they lynched

And my pockets on chubby but they can't be pinched

After they use you, then they abuse you

Then they get mad when they lose you

(Excuse you)

You know the liar will accuse you

You know the queen still reign, it's just business as usual

Anything I touch, I bless it

Track record so impressive

Open the Billboard Awards with a hit record

The devil thought he had me

But I rebuked him, got money and I'm still a baddie[Hook: Alicia Keys]

I just got back from where they said I couldn't get back from

And I thank God, I thank God that I made it

They surprised, they surprised that I made it

Heart is like diamonds, keep blinding they faces

I wonder how I keep finding these places

I can explain how it feels to be patient

Killing the drama, we finally made it[Refrain: Alicia Keys]

Yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah

Nobody knows, nobody knows, nobody knows, nobody but you

Yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah
Nobody knows, nobody knows, nobody knows, nobody but you[Bridge: Alicia Keys]
Say nobody knows, all the trouble I see
Glory, looking for some glory, from all the trouble I see
Tell em' nobody knows, all my sorrows
Nobody knows, [?] tomorrow[Hook: Alicia Keys]
I just got back from where they said I couldn't get back from
And I thank God, I thank God that I made it
They surprised, they surprised that I made it
Heart is like diamonds, keep blinding they faces
I wonder how I keep finding these places
I can explain how it feels to be patient
Killing the drama, we finally made it[Refrain: Alicia Keys]
Yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah
Nobody knows, nobody knows, nobody knows, nobody but you
Yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah
Nobody knows, nobody knows, nobody knows, nobody but you[Outro: Alicia Keys]
Baby
Can you feel it?
Can you see it?
