

# Destination Unknown

[Julie C Myers](#)

I'm getting outta here 'cause there's too many complications  
Yeah I'm gettin outta here don't get driven any information  
And if they ask you for a number to call  
Just say I'm gone that's all Destination unknown, destination unknown  
I'm a long way from home  
Destination unknown, I'll be gone, gone, gone  
Destination unknown, destination unknown If anybody wants me just say you don't know the address  
'Cause I've had enough of the confusion and the madness  
And should anybody ever try to stall  
Just say I'm gone that's all Destination unknown, destination unknown  
I'm a long way from home  
Destination unknown, I'll be gone, gone, gone  
Destination unknown, destination unknown I'm tired of playing other people's games  
Tired of waiting for some things to change Destination unknown, destination unknown  
I'm a long way from home  
Destination unknown, I'll be gone, gone, gone  
Destination unknown, destination unknown I'm tired of playing other people's games  
Tired of waiting for some things to change Destination unknown, destination unknown  
I'm a long way from home  
Destination unknown, I'll be gone, gone, gone  
Destination unknown, destination unknown Destination unknown, destination unknown  
I'm a long way from home  
Destination unknown, I'll be gone, gone, gone  
Destination unknown, destination unknown Destination unknown, destination unknown  
Destination unknown, I'm a long way from home  
Destination unknown, destination unknown  
Destination unknown, I'm a long way from home  
Destination unknown, destination unknown  
Destination unknown, I'm a long way from home
