

# The God I Know

Chris Tomlin

I've seen Your goodness, I've known Your mercy  
Countless times before  
I've felt the thunder, I've heard the whisper  
The voice that calms the storm When the world is shaken, You're my firm foundation  
Be still, be still my soul  
[Chorus]  
The God I know, will make a way  
Whatever comes, whatever I face  
The God I know, is strong to save  
He is the Lord, He conquered the grave  
And this is the God I know  
And this is the God I know I remember, when the waters parted  
How You led me through  
And all I've needed, You have provided  
Your promises are true When the world is shaken, You're my firm foundation  
Be still, be still my soul  
The God I know, will make a way  
Whatever comes, whatever I face  
The God I know, is strong to save  
He is the Lord, He conquered the grave And this is the God I know-ow  
And this is the God I know-ow And I know You're working all things, for my good  
And I know You're working all things, for my good  
And I know You're working all things, for my good  
And I know You're working all things, for my good  
Yeah I know You're working all things, for my good The God I know, will make a way  
Whatever comes, whatever I face  
The God I know, is strong to save  
He is the Lord, He conquered the grave And this is the God I know  
And this is the God I know  
And this is the God I know  
And this is the God I know And I know You're working all things, for my good  
And I know You're working all things, for my good  
And I know You're working all things, for my good  
And I know You're working all things, for my good The God I know, will make a way  
Whatever comes, whatever I face  
The God I know, is strong to save  
He is the Lord, He conquered the grave

He conquered the grave
