Separate Kingdom

Fu Manchu

I see right to
My separate kingdom
I lead you to
Your certain freedom
I'll be there soon
Where I have seen them
I'm on my way
To my separate kingdomFirst time in years
Facing something for your worst fear
Mother ship so high
So what for the knees we riseRound and down
And round we go
To this place I do not know
A sudden turn
And quick to learn
Of our futureI see right to
My separate kingdom
I lead you to
Your certain freedom
Scrabbled in alone
Being waiting for years to go
Better keep from the side
Or bit to the world unknownRound and down
And round we go
To this place I do not know
A sudden turn
And quick to learn
Of our futureRound and down
And round we go
The time is place to land of known
Miles to past
Here at last
In our futureRound and down
And round we go
To this place I do not know
A sudden turn
And quick to learn
Of our futureRound and down
And round we go

The time is place to land of known
Miles to past
Here at last
In our futureI see right to
My separate kingdom
I lead you to
Your certain freedom
I'll be there soon
Where I have seen them
I'm on my way
To my separate kingdom
