

It's All In My Mind

George Jones

I Just Turned out the Lights upstairs, I told you goodnight once again.
Oh, but I did not hear you whisper a word, you must be sleeping, so I won't come in.
I told the kids to be quieter, mommy needs her rest, how much silence this house must I find.
Why I even, fixed supper, oh but nobody showed up.
I'm alone now, it's been all in my mind. Yes, it's all in my mind you've left nothin' behind
I just sit here and dig up all the memories I can find
I'll just turn on that old TV, Hon' while you pour the wine
(I love you), but it's all in my mind.>>Instrumental
