

# Helpless (feat. Pitbull)

## Backstreet Boys

I wake up every morning and see your face  
lying right beside me it fills the space  
in my heart  
I cant live without you  
dont wanna figure right how to  
and every time I lay my head down to sleep  
the emptiness inside of me starts to beat  
so loud  
I cant hear the sound  
do you hear it?  
for you I fall in love all over again  
each time  
I lay my eyes on you  
I pretend  
I feel so helpless  
without you  
feel so helpless  
without you  
It takes a piece of me  
each time you leave  
I feel it in my chest  
so hard to breathe  
I feel so helpless  
without you  
I feel so helpless  
without you I witness every trick you got up your sleeve  
but still somehow you keep on surprising me  
Im yours  
I cant live without you  
Dont wanna figure right how to  
Every time I see you I feel like I  
could be the luckiest man in the world  
Why try to fight it  
Theres no need to hide it  
because  
you know I fall in love all over again  
each time  
I lay my eyes on you  
I pretend

I feel so helpless  
without you  
feel so helpless  
without you  
Helpless  
It takes a piece of me  
each time you leave  
I feel it in my chest  
so hard to breathe  
I feel so helpless  
without you  
I feel so helpless  
without youFeels like  
I fall apart  
every time  
Where do I start  
Im so helpless  
without you  
without youEvery time I close my eyes  
youre the first thing that runs to my mind  
Everywhere I go  
I see you  
hear you  
feel you  
I just wanna be near you  
and heal? you  
Last thing you said is how dare you  
First thing I said is Im sorry  
Now Im sitting here  
helpless  
man  
Same old storyNow shes brokenhearted  
Time heals all the wounds  
She said  
Not this time  
Its true  
Everyone plays a fool  
And that fool is me  
Because I foolishly  
took advantage of a woman who loved meI fall in love all over again  
each time  
I lay my eyes on you  
I pretend  
I feel so helpless  
without you

feel so helpless  
without you  
It takes a piece of me  
each time you leave  
I feel it in my chest  
so hard to breathe  
I feel so helpless  
without you  
I feel so helpless  
without you ohh yeah
