I don't know what it is That makes me feel alive I don't know how to wake The things that sleep inside I only wanna see the light That shines behind your eyesI hope that I can say The things I wish I'd said To sing my soul to sleep And take me back to bed You want to be alone When we could feel alive insteadBecause we need each other We believe in one another And I know we're going to uncover What's sleepin' in our soul Because we need each other We believe in one another And I know we're going to uncover What's sleepin' in our soul What's sleepin' in our soulThere are many things That I would like to know And there are many places That I wish to go But everything's dependin' On the way the wind may blowI don't know what it is That makes me feel alive I don't know how to wake The things that sleep inside I only wanna see the light That shines behind your eyesBecause we need each other We believe in one another And I know we're going to uncover What's sleepin' in our soul 'Cause we need each other We believe in one another And I know we're going to uncover What's sleepin' in our soul What's sleepin' in our soul What's sleepin' in our soul What's sleepin' in our soul'Cause we believe

'Cause we believe Yeah, we believe 'Cause we believe 'Cause we believe 'Cause we believe Because we need Because we need
