

Time to Break Free

Gamma Ray

Where will you be tomorrow? Really, I don't care
I have seen the future, rising everywhere
Look into the mirror, tell me what you see
Piece by piece you'll vanish until you disappear
Now, I'm doing what I say
No more fooling anyway
Beyond this hell there is a better life to lead
You're all undone, emotionless
It's not the way for me
Now I know there's a better way
Let my heart ride out for a brighter day
Now it's time to breathe in the open air
With a mind so free anyway
It's time for a change
It's time to break free
Had enough of fooling, had enough of lies
Hypocrisy intriguing right before my eyes
Had enough of hound dogs, barking all the time
I agree with Elvis, you ain't no friend of mine
Apart from this, there is a better life I know
You're all undone, emotionless
It's time for me to go
Now I know there's a better way
Let my heart ride out for a brighter day
Now it's time to breathe in the open air
With a mind so free anyway
It's time for a change, it's time to break free
Now I know there's a better way
Let my heart fly free towards a better day
Now it's time to breathe, it's the only way
Let my mind ride out anyway
Now I know there's a better way
Let my heart ride out for a better day
Now it's time to breathe in the open air
With a mind so free anyway
It's time to break free
It's time to be me, free
