

Magnificent

Hermitage Green

I am magnificent
Only with you in my heart
Everything is so beautiful
Only when you tear me apart Cold hits. Craving the taste of it.
Eyes drift. Under the spell of it.
Lifeless. Taking the pain away.
Faith is not for the two of us. Chorus:
Falling, embrace this final kiss
I need to be honest
Lost in the abyss
Don't care what the cost is
At this point it's worth it
To be magnificent You are my chemistry
Take me to heaven
And then back again.
So play for me
My bittersweet symphony
Haunting your melody
Then let go of me Cold hits. Craving the taste of it.
Eyes drift. Under the spell of it.
Lifeless. Taking the pain away.
Faith is not for the two of us. Chorus:
Falling, embrace this final kiss
I need to be honest
Lost in the abyss
Don't care what the cost is
At this point it's worth it
To be magnificent [Bridge] x2
In the midnight street
We're dancing for the hell of it
I wet my feet
I surrender to the charm of your lies
In my eyes I can't hide Cold hits. Craving the taste of it.
Faith is not for the two of us. Chorus:
Falling, embrace this final kiss
I need to be honest
Lost in the abyss
Don't care what the cost is
At this point it's worth it

To be magnificent
