Family

Amy Grant

Where have you come from?
Where are you going?
Tell me what's brought you here now
And is your heart singing?
Then share what you're bringing
We all are a part of the show
'Cause we are all going home
'Cause we are a family
And we are all going home
Are you listening? We are all going home
So come join the family
'Cause we are all going home
But is your heart quiet?
Is something not right?

Can you tell me what's blocking your way?
Well, just ask the father
He knows every problem
He'll carry that burden away
'Cause we are all going home
'Cause we are a family
And we are all going home
Are you listening? We are all going home
So come join the family
'Cause we are a family
And we are all going home
Yes, we are all going home
