

# What This Country Needs

Aaron Tippin

If I was runnin' this country  
I'd start it over from scratch  
Keep what's good an' pile up what's bad  
And then I'd strike the match  
Yea, we'd go back to the basics  
Of how things ought to be  
Yea, there'd be a lot of changes  
If it was left up to me 'Cause what this country needs  
Is a little more steel guitar  
And put a little fiddle right in the middle  
Straight out of a Texas bar  
And give us a song we can all sing along  
From sea to shinin' sea  
Yea, be proud of it and always love it  
That's what this country needs Now if you want to hear about livin'  
Just twist that radio dial  
'Til you come to a singer singin'  
What life is all about  
'Cause you can't deny that people still cry  
They laugh and they smile and they hurt  
And that's my humble opinion y'all  
An' you can take it for what it's worth 'Cause what this country needs  
Is a little more steel guitar  
And put a little fiddle right in the middle  
Straight out of a Texas bar  
And give us a song we can all sing along  
From sea to shinin' sea  
Be proud of it and always love it  
That's what this country needs Yea, turn it on up and let it ring out  
Across the land of the free  
They ought to build a statue of the Hank Williams Senior  
In Washington, D.C. 'Cause what this country needs  
Is a little more steel guitar  
And put a saw an' fiddle right square in the middle  
Straight out of a Texas bar  
And yo, give us a song, we can all sing along  
From sea to shinin' sea  
Yea, be proud of it an' always love it  
That's what this country needs You just be proud of it an' always love it

That's what this country needs
