

Size Too Small

Sufjan Stevens

I was the best man
In a size too small
You were my best friend
Going at it all And what if I
Put off my inheritance?
Where is the best man?
All arise us all in peace I still know you
And I still like you
The best man
I still owe you Everything rises
Going at it all
All the surprises
In a size too small And what if I
Told you I was in love with this?
Would you surprise us
In a size for all of me? I still know you
And I still like you
The best man I still know you
The best man
I still owe you
