

# Let in the Sun

## Take That

You've found yourself alone in a room  
Total devastation  
In the darkness you must enter the code  
And crack the combination all on your own  
(Ooh) Pick yourself up and search for the light  
Hungry for a new start  
It's your chance now to stand up and fight  
Take the next step now a day at a time Open up, open up  
Everybody's waiting  
From high above  
Feel the love  
Open up your windows Let in the sun  
Let in the sun  
Let in the sun  
Just let in the sun Good to see you with your feet on the track  
Waiting for a restart  
Leaving all that once what was holding you back  
Want you to see the sun rise as fast as you can  
(Ooh) Pick it up, turn it round (Ooh)  
Want you to see the sun rise as fast as you can Open up, open up  
Everybody's waiting  
From high above  
Feel the love  
Open up your windows Let in the sun  
Let in the sun  
Let in the sun  
Just let in the sun Feel the air and breathe it in  
Feel the warmth upon your skin  
Looking out and looking in  
Ooh  
Every colour in your eyes  
In reflection of the light  
Every minute, every night Open up, open up  
Everybody's waiting  
From high above  
Feel the love  
Open up your windows Let in the sun  
Let in the sun  
Let in the sun

Let in the sun  
Just let in the sun  
Oh let in the sun, let in the sun  
Let in the sun
