Coming Around

Travis

Never see you comin' around
They know they got their heads screwed on
I'm standin' in the middle of town
I know I might never come homeJust standin' where I am with all the people passing by me
The sound of all these passersby
Mixed in with the bus and motor-car
Must be sure these are the signs
'Cos I've been here a million times beforeJust tell me when it's comin' around
Comin' around
I think I've seen you comin' to town
Huntin' you down, comin' aroundTell me if I'm bringin' you down
'Cos I was fine till you came along
You tell me that the tears of a clown cloud
That I'm confusin' while abusin' my mindSo far away I wanna be
That's not as close to you and me
The things they call our destiny
Now why do you have to pick on me at all?
The walls are comin' downJust tell me when it's comin' around
Comin' around
I think I've seen you comin' to town
Huntin' you down, comin' aroundJust tell me when it's comin' around
Comin' around
I think I've seen you comin' to town
Huntin' you downJust tell me when it's comin' around
Comin' around
I think I've seen you comin' to town
It's draggin' me down, it's comin' around
