

# I'll Meet You There

## Owl City

If we could sit together a moment  
And talk forever just to pass the time  
I would smile as the shivers and chills  
Run down my spine  
With your eyes are locked on mine  
Oh, we will fill the metro skies with country air  
And when you close your tired eyes  
I'll meet you there, I'll meet you there  
Deep inside of you there's a ruby glow  
And it gets brighter then you and I will ever know  
There's a rushing sound  
That surrounds us when we walk alone  
And it's everything we've never known  
Wander down the street  
And I would be the pavement beneath your feet  
If we could just be immobile for some time  
And finally figure out the way we feel  
About the missing puzzle pieces  
And cloudy question marks  
It still looks a bit surreal  
Oh, I tend to disappear here and there  
So concentrate and you'll feel me everywhere  
And well feel the metro skies with country air  
If you're lost when you close your eyes  
I'll meet you there  
You could be anywhere, I'll meet you there  
You could be anywhere  
Open your eyes and see everything you can be  
I'll meet you there
