

# A Certain Kind

## Soft Machine

A certain kind... of love, I'd say  
Exists for me, and every night  
Your kind of love sets me alight  
And I know it's real, it's what I feel, what I feel...And loving you the way I do  
Makes everything seem right again  
And when you're near I know  
I know you just can't tell the time  
When you... it's just not rightAnd so our love I see in you  
The things today, the things we do  
And when you're near I know  
You just can't see... well  
I know it's real, it's what I feelAnd loving you the way I do  
Makes everything seem right again  
And when you're near I know  
I know you just can't see  
All the time of day  
I know you're mine, and all the time
