Definitely When I see you I see sunshine
Clear skies of blue, every time I look at you
You and I sippin' on red wine
I'm so much into you, girl, my love is overdue Definitely I want this to be
So baby, come to me, you look full and so lovely, yeah
Definitely I want this to be
You're like the air I breathe, you're my ebony If lovin' you is wrong I don't wanna be right, oh right
And being bold as I am, I gonna tell you that you're dynamite
It's not a secret love, so baby come on into the light, yeah
Let me love you better So definitely I want this to be
So baby, come to me, you look full and so lovely, yeah
Definitely I want this to be
You're like the air I breathe, you're my ebony, yeah Definitely want
Definitely want
Definitely want
Definitely want So when I see you I see sunshine
Clear skies of blue, overtime I look at you
You and I sippin' on red wine
I'm so much into you, girl my love is overdue Definitely I want this to be
So baby, come to me, you look full and so lovely, yeah
Definitely I want this to be
You're like the air I breathe, you're my ebony If lovin' you is wrong I don't wanna be right, oh right
And being bold as I am, I gonna tell you that you're dynamite
It's not a secret love, so baby come on into the light, yeah
Let me love you better So definitely I want this to be
So baby, come to me, you look full and so sexy, yeah Definitely want
