

# Haunted House

## Ooklah the Moc

(ooooo) From what I can see I'm getting scared

So don't you try and approach what I've worked so hard to attain  
Back up, you don't get a piece automatically, oh no  
It's obvious, so obvious, you think differently  
Leech for it all, leech for it all and bury your intention

Cause what they do, and what them say, it not gonna make any difference  
And what I pursue  
Cause what they think, and what them try, it gonna make any difference  
I set life time goals and no one can take that away

Can you really blame a man of progress  
When they all look alive today is, burn um stick um

Why did you do, everything in this human new  
Rethink your scheme and go use it on another man  
Another man, a stupid man, unintelligence you're looking for  
Leech for it all, leech for it all, cause your plan has been shut down

Cause what they do, and what them say, it not gonna make any difference  
And what I pursue

So don't you try and approach what I've worked so hard to attain  
Back up, you don't get a piece automatically, oh no  
It's obvious, so obvious, you think differently  
Leech for it all, leech for it all and bury your intention

Cause what they do, and what them say, it not gonna make any difference  
And what I pursue  
Cause what they think, and what them try, it gonna make any difference  
I set life time goals and no one can take that away

Can you really blame a man of progress  
When they all look alive today is, burn um stick um

Them plan take away, Them plan take away,  
Our Future, ahhhh.  
No No, No No,  
Never Never No No

---
