La La Land

Green Velvet

Advisory - the following lyrics contain explicit language:

I've been the one to party until the end
Looking for the after party to begin
I'm going down to La La Land
I hope to see ya soon in La La LandCHORUS
Something bought those little pills unreal the thrills they yield until they kill a million brain cells
Something bought those little pills unreal the thrills they yield until they kill a million brain cellsNow I need to go,whos gonna give me a ride to the after show
I hope that I have enough change so I can make my brain rearrange
I'm going down to La La Land
I hope to see ya soon in La La LandCHORUSOh what have I done, what happened to the morning
I passed the time away high again
I got to find a way to fill the space in time (8X)CHORUSLa La Land is where I need to be
La La Land is the place that all sets me freeCHORUS (4X)Brain cells
Has anybody seen my brain today? Ay
Can anybody pay my rent today? Ay
