

Never In a Million Years

[Laura Branigan](#)

Oh, if I could touch you
It'd be a once in a lifetime dream come true
And oh, if I could have you
Just one night, just one time
But I know I'll never get the chance
I'll never get a second glanceNever in a million years
Never in a thousand tears
If I could ever hold you
I'd never let go
Never in a million yearsOh, I need you
If you could only see inside my heart
And oh, to be near you
Close enough to reach and touch
Well, I've thought it over in my mind
If I could walk across the bridge of timeNever in a million years
Never in a thousand tears
If I could ever hold you
I'd never let go
Never in a million yearsBut I know, I'll never, never
Never get the chance
I'll never get a second glanceNever in a million years
Never in a thousand tears
If I could ever hold you
I'd never let go
Never in a million yearsNever, never in a million years
Never in a thousand tears
If I could ever hold you
I'd never let go
Never in a million years
