

Change (Demo)

Egypt Central

Conflicted
Can you forgive and forget
You can't fix it
When you live in regret
Are you afflicted
Or does it burn inside
Carpe diem Say what you have to say
Before times slips away
Make the change Don't deny it
I know your terrified of yourself
You can't fight it
I know your screaming for help
You chase riots
But your running blind
Carpe diem Say what you have to say
Before times slips away
Make the change Say what you have to say
Before times slips away
Make the change Say what you have to say
Before time slips away
Make the change Say what you have to say
Before times slips away
Make the change Say what you have to say
Before times slips away
Make the change Don't deny it
I know your terrified of yourself
You can't fight it
I know your screaming for help
You chase riots
But your running blind
