

# The Time Bender

## Becoming the Archetype

Traversing the infinite  
Transcending the evident  
Watch as reality bends to My will Navigating eternity  
Dispatching uncertainty  
Behold in My presence  
Time standing still I am the future  
I am the past  
I have seen you breathe your last Navigating eternity  
Dispatching uncertainty  
Behold in My presence  
Time standing still I am the end  
I am the start  
I am holding your beating heart Day is night  
Dark is light  
Eternally self existent Traversing the infinite  
Transcending the evident  
Watch as reality bends to My will I am the future  
I am the past  
I have seen you breathe your last
