

# Never Heard Nothin (Kloter Remix)

## Galapaghost

Well I never wanted to  
Know the real you  
Uncovered and all  
And I never wanted to  
See the real me  
Love you at all And I'm paralyzed from you  
From the lips down  
And all the way down  
But I'm deep inside of you  
But you feel nothin  
You feel nothin  
But I think I heard your voice  
But I never heard nothin  
I never heard nothin  
And I think I heard you speak  
But I never heard nothin  
I never heard nothin But I found another match  
She says we'll make it  
So long as I don't break it  
But I'd give it all up  
Just to hear you say  
That you love me  
And I think I heard your voice  
But I never heard nothin  
I never heard nothin  
And I think I heard you speak  
But I never heard nothin  
And I'm waitin for the day  
For you to say somethin  
For you to say somethin And I'm gonna start to pray  
That you'll say somethin  
You'll say somethin
