

Cross My Heart

S Club 7

"Cross my heart", we say
Cross my heart, I'll be We got it all and we'd be fools to let it go
'Cause I need you more and more
You're my life and I live for your love that you give
And although my journey's long, I'll soon be home
Own, it's gonna be so hard on my own
But I won't be alone Cross my heart and tell no lies
No one's leaving you behind
Just because we say goodbye, baby
Cross my heart, I do believe
In my thoughts and in my dreams
I'll be taking you with me, baby Sometimes I think that I can feel you breathin' on me
You're there so deep inside and I like, what I feel
Though it's not always real
It helps me carry on, till I come home
Own, it's gonna be so hard on my own
But I won't be alone Cross my heart and tell no lies
No one's leaving you behind
Just because we say goodbye, baby
Cross my heart, I do believe
In my thoughts and in my dreams
I'll be taking you with me, baby Dream, a dream, a dream, a dream, a dreamin'
Wherever you are, you're near me
Please believe, believe, believe, believe in
Whatever I say, I cross my heart Cross my heart and tell no lies
No one's leaving you behind
Just because we say goodbye, ohh baby
Cross my heart, I do believe
In my thoughts and in my dreams
I'll be taking you with me, baby Cross my heart and tell no lies
No one's leaving you behind
Just because we say goodbye, baby
Cross my heart, I do believe
In my thoughts and in my dreams
I'll be taking you with me, baby Cross my heart and tell no lies
No one's leaving you behind
Just because we say goodbye, baby
