

Things Have Changed

Pete Townshend

The time will come, yes I know
You will come walkin' home
And you'll find my address
Expectin' my caressBut darlin' things have changed
Things have changed
Please don't come around
Destroyin' happiness I've found
Things have changedYou left me once without a word
And left me lookin' so absurd
Now I've found my way around
Get my feet back on the groundDarlin' things have changed
Things have changed
Please don't come around
Destroyin' the happiness I've found
Things have changedThe only thing I think about you
But all the same I can live without you
Things have changed
Things have changedThings have changed
Things have changed
Things have changed
Things have changed
