

# Hero of the Day

## All Faces Down

now I'm on my way, I walk through the rain  
prevent every downfall on this world because you made  
me the hero of the day

good morning, how's it going pretty little world  
I am here just today, for everyone you hurt  
don't get me wrong, oh you are such an awesome place to live  
but it is man and it is the way he thinks  
it is his attitude and faith in nothing  
everyone believes that only miracles can change everything

and so they all need a wakeup call just to crash the walls  
which still surround their faith in nothing  
so they all need a wakeup call just to crash the walls  
which still surround their faith in nothing

for them it seems impossible to make their dreams come true  
they always need some evidence, a hero like me and you

what do you see when you look into my eyes  
what do you feel when your mind connects with mine  
I really hope you believe in me, you made me the hero of the day  
where will I be when darkness kills the light  
who will be there to save one thousand lives  
tomorrow we all will be, together the heroes of the day

there is not much inside us that has to be changed  
but even a different way of thinking can change everything  
if others do the same, you won't believe what we could achieve  
we could create a new community with no heroes  
cause we're the heroes of the day

and so they all need a wakeup call just to crash the walls  
which still surround their faith in nothing  
so they all need a wakeup call just to crash the walls  
which still surround their faith in nothing

for them it seems impossible to make their dreams come true  
they always need some evidence, a hero like me and you

what do you see when you look into my eyes  
what do you feel when your mind connects with mine  
I really hope you believe in me, you made me the hero of the day  
    where will I be when darkness kills the light  
    who will be there to save one thousand lives  
tomorrow we all will be, together the heroes of the day
