

# Magnetic

Jessie J

Light up,  
Don't know how I did it right from the beginning,  
My head's kinda spinning.  
Light up,  
I won't be forgiven, my life is forbidden, they say it's a miracle. Sometimes I don't even know if I'm wrong or  
right,  
I try to drown my sorrow that surfaces every night,  
I'm moving at a speed that makes everybody look slow,  
What happens if I let it go? But there ain't no way you're pulling me down,  
I recharged the speakers and sound,  
It's okay, it isn't your fault, everything is alright. Take me to a place I know,  
Anywhere that feels like home.  
Somewhere that if I let go,  
Someone's gonna catch my soul, Magnetic. (I'm lovin' livin' life but steady as I go)  
Here we go! (Sky is the limit as long as it feels good)  
Magnetic. (I'm lovin' livin' life but steady as I go)  
Here we go! (Sky is the limit as long as it feels good)  
Here we go!  
Haha, ready? Show me love, sometimes when you give it you don't always get it,  
That's all that you wanted,  
Angels watch like television, got over my mission, so I gotta finish off. Sometimes I don't even know if I'm  
wrong or right,  
I try to drown my sorrow that surfaces every night,  
I'm moving at a speed that makes everybody look slow,  
What happens if I let it go? But there ain't no way you're pulling me down,  
I recharged the speakers and sound,  
It's okay, it isn't your fault, everything is alright. Take me to a place I know,  
Anywhere that feels like home.  
Somewhere that if I let go,  
Someone's gonna catch my soul, Magnetic. (I'm lovin' livin' life but steady as I go)  
Here we go! (Sky is the limit as long as it feels good)  
Magnetic. (I'm lovin' livin' life but steady as I go)  
Here we go! (Sky is the limit as long as it feels good)  
Here we go. Vampires and beasts lick tears from my cheeks.  
I won't hide behind tweets and smiles for life. Take me to a place I know,  
Anywhere that feels like home. (Come on!)  
Somewhere that if I let go,  
Someone's gonna catch my soul, Magnetic. (I'm lovin' livin' life but steady as I go)  
Here we go! (Sky is the limit as long as it feels good)

Magnetic. (I'm lovin' livin' life but steady as I go)  
Here we go! (Sky is the limit as long as it feels good)

Hey!

Woah, here we go,

Woah, magnetic,

Woah, here we go,

Woah, yeah.
